---

Is anyone else having issues when importing posts with images through the best spinner api..

Soon as I pressed use the BS Api no images show up..

Image \_56398684\_sccot1.jpg of the post is on my pc in the folder

file:///C:/Program%20Files%20(x86)/CartyStudios%20CorporationWebMagnates%20-%20Auto%20Bloggi  
ng%20SoftwaredataprnewsBBC%20WORLD\_56398684\_sccot1.jpg

File name is : \_56398684\_sccot1.jpg

looks to me from the code its missing the / to get to the directory..
