

[Help] ABS do not translate articles

Posted by elazraqmed - 2013/11/20 13:32

hello everybody , hello Mr NiCK and hello supporters .
first of all thanksfor this magic softwaire . i started using ABS a few months ago . but i didn't get good results from it , that's why i try to verify whats the problem . finally i found that ABS is not translating articles so no unique content , and as you know for google the conten is the king . so if it's a problem from my version (i used v1 and v2) same problem if there is another version bring me a link . or if an everybody probelm and you are working on fixing this issue tell us about it .

Both Google and Bing have shut down their free translation service and that is why we have integrated the software with Best Spinner to spin the content. Use it for better results.

Sorry, Best Spinner doesn't offer any discounts. It will work 100% for sure else you could apply for a refund in 30 days.

Regards,
Carty..
