

Activation Code

Posted by AffiliateNicheSolutions - 2011/10/30 14:36

I am in need of a new activation code.. I had a computer problem yesterday and some how my activation code does not work any more and I am back to DEMO MODE.

I have sent a couple of email but I am not sure if they are reaching you..

Please reply so I can get activated again.

I also have this problem

I got hit by a bad virus, and decided to upgrade to window 7.

Now when I start Auto Blogging Software it won't accept my key.

It is nothing new though, cause sense the upgrade seems I been emailing about every program I install

:(

Hey There,

Thanks for the information..

Do you get any responses on the problems?

I have been waiting for almost 2 days to get a new activation code but no response as of yet.

I have did the emails that came with the purchase and also the ones on the main purchase page. As of yet no reply.. I had

everything set up and ready to go with one post made to one of my blogs then the problem..

Looking to get this software up and running this weekend before work on Monday but I am having my doubts..

Do you have a better email to someone.

No, I didn't get a reply yet.
I only replied here, I didn't send an email yet either.
That is going to be my step, seems like I been
emailing every program I install since the update to Win 7.
It has been 1 big pain in the ass. lol

All activation keys sent! If you haven't received, please mail again.

Regards,
Carty..
